

POWERSEM × KAYNES SEMICON

IGBT Power Modules – Built Closer to Application, Scaled for Production in Semiconductor in Gujarat

A PRACTICAL PARTNERSHIP, BUILT AROUND HOW POWER MODULES ACTUALLY WORK

Powersem and Kaynes Semicon are working together to build and scale power modules with a tighter link between application requirements and manufacturing execution.

WHAT WE ARE DOING DIFFERENTLY

We are connecting:

German know-how

With Assembly, Packaging, and Test Capability in India

Into a single operating model.

Not design here and manufacturing there – but continuous alignment between the two.

WHY THIS MATTERS

IN POWER MODULES, PERFORMANCE IS DRIVEN AS MUCH BY:

Customer Demand

Assembly Precision

Leadership
